

New Gallant 7.4 metre
Whyalla Sea Rescue boat
..... now in service

NEWS IN BRIEF:

9. Allan Slater is claiming to be a very careful driver after using and then losing his mobile phone in the car park at the Whyalla Golf club. Later he found it still perched on the rear bumper/back? of his car, having travelled 4 or 5 kms across town to visit John D. Still think this is short of Sid Allan's feat of driving home to Whyalla from Arno Bay with an almost full mug of coffee on the bulbar of his Nissan Patrol.
10. An impromptu get together was held at Bet Hendo's for New Year and about sixteen or seventeen people were able to attend at short notice. The weather had moderated somewhat from the high temperatures of the day and every one enjoyed the ambiance and atmosphere under Bet's newly refurbished outside area. Later we were able to view the Council funded fireworks display at midnight from her yard.
